SUMMARY

Detail-oriented Data Analyst with a background in Agricultural Extension and Rural Development. Proficient in SQL for data manipulation and Excel for advanced data modeling, including pivot tables and VLOOKUP. Adept at critical thinking and data-driven decision-making, complemented by strong communication skills for effective collaboration with diverse teams. Demonstrates exceptional attention to detail and the ability to manage time and organize tasks effectively, ensuring the delivery of high-quality analysis and insights to support strategic initiatives.

OBJECTIVE

I am an enthusiastic team player with strong communication and organizational skills, aiming to contribute positively to i Aid Africa Internship 's goals and deliver high-quality results.

PROFESSIONAL EXPERIENCE

DATA ANALYST

Data School Academy. Ibadan | February 2022 - March 2023

Performed data analysis by collecting, processing, and interpreting large datasets to identify trends and insights. Developed and maintained dashboards and reports for stakeholders, utilizing SQL and Excel. Collaborated with cross-functional teams to support data-driven decision-making and optimize business processes.

EDUCATION

AGRICULTURAL EXTENSION AND RURAL DEVELOPMENT

University of Ibadan. Full time | March 2021 - present

Gained expertise in agricultural extension methodologies and rural development strategies. Engaged in community outreach programs, facilitating workshops to promote sustainable farming practices. Developed skills in needs assessment, program planning, and evaluation, enhancing knowledge of rural socio-economic dynamics and stakeholder engagement.
